High School Students:
Get a head start on your
degree or career!

Concurrent Credit

Concurrent credit is a great way for high school students to earn both college and high school credit simultaneously. Concurrent enrollment is the enrollment of a high school student in post-secondary education for high school and college-level credit (1000 and 2000 level courses). This program is designed for students in grades 9th-12th. Students apply for admission to EACC and once admitted, have the opportunity to take full advantage of this opportunity to learn. EACC will provide qualified instructors at your school or online, or the school district may provide appropriately credentialed instructors according to the Arkansas Division of Higher Education (ADHE) standards.

Make your summer count with the Concurrent Credit Summer Tuition Waiver!

EACC has established a tuition waiver for summer coursework to students who have successfully completed at least six (6) credit hours in East Arkansas Community College's Concurrent Credit. The waiver may cover up to one class per summer term.

For more information on concurrent classes, call 870-633-4480, ext. 407 or email tnichols@eacc.edu

Secondary Career Center

EACC's Secondary Career Center assists high school students in making more informed career choices. Students select a technical program of study based on their aptitude and interest. ESCC prepares students for the world of work upon high school graduation. Programs teach students marketable skills and lead to professional certifications, certificates of proficiency, or technical certificates. Students are encouraged to continue their education after high school. ESCC classes are credited at both the high school and college level, and students acquire college credits while in high school which will count toward a degree, certificate, or advanced certification program.

Areas of Study:

Automotive Service Technology, Diesel Service Technology, Industrial Equipment Technology, Medical Professions, Practical Nursing, Refrigeration and Heat Exchange Technology, and Welding Technology

For more information on the Secondary Career Center, call 870-633-4480, ext. 296 or email vstewart@eacc.edu
