EastArk Secondary Career Center Program Information

Through our service as an academic and economic leader, we will empower students and our community to succeed through business and industry partnerships, cultural enrichment, and educational programming. – *EACC Vision Statement*

Act 1097 of 1991 and Act 936 of 2007 of the Arkansas General Assembly provides for students who are enrolled in an accredited high school and meet the admission standards of East Arkansas Community College (EACC) to concurrently enroll for academic courses.

The EastArk Secondary Career Center (ESCC) Enrollment Program is a joint effort between EACC and area high schools. Upon approval of the students' high school and ESCC, a student may take college classes on EACC's campus, and receive both high school and college credits.

Students have the opportunity to earn a Certificate of Proficiency and/or professional industry recognized certification(s).

ESCC Primary Goals:

- To assist students in making more informed career choices. Students select a technical program of study based on the aptitude and interest. The knowledge and experience gained through ESCC will enable students to make more intelligent career choices.
- To prepare students for the “World of Work” upon high school graduation. The programs of study at ESCC teach students marketable skills and lead to professional certifications, certificates of proficiency, or technical certificates from EACC.
- To encourage students to continue their education after high school. ESCC classes are credited at both the high school and college level. Students can acquire college credits while in high school which will count toward a degree, certificate, or advanced certification program.

PARTICIPATION REQUIREMENTS

Acceptance into an ESCC program is considered using a multiple measures approach, taking into account the student's ability to benefit and recommendations by high school administration and counselors. Measures considered include attendance & disciplinary records. Grade point averages should be at a 2.0 minimum.

ENROLLMENT PROCESS

1. First-time students participating in the program must complete an EACC Admissions Application online (www.eacc.edu) . Students will complete the [HIGH SCHOOL/CONCURRENT APPLICATION](#).
2. Students must complete a [High School ESCC Application](#) and [Release of Information Form](#) that may be obtained from the high school counselor or by visiting www.eacc.edu/eastark. This will need to be signed by the student, parent or guardian, and the principal.

** All grades received for College Courses will be posted on the student's official EACC Transcript.*

ESCC enrolled students are treated and held to the same standards as consistently as possible with the EACC practices for courses offered on-campus students.

Students are held to the same conduct policies such as academic integrity, consequences of plagiarism, and academic dishonesty. A description of these EACC policies can be found in the [EACC Student Handbook](#).

ACADEMIC INTEGRITY

Cheating in any form may result in the student being dropped from the class with an "F" and/or being suspended from the College. This includes, but is not limited to plagiarism, turning in assignments prepared by others, or unauthorized possession of exams. Students who feel they have been unfairly accused of cheating may appeal to the Vice President for Vocational, Occupational, & Technical Education. At the discretion of the Vice President, a description of the incident may be placed in the student's file in the Registrar's Office. Violators may be reported to the Dean of Student Services for possible disciplinary action. Policy can be found in the [EACC Catalog](#).

INCOMPLETE GRADE POLICY

An ESCC student is eligible for a grade of incomplete only when an emergency or other reason beyond his/her control prevents completion of a course near the end of an academic term.

Students must meet the following conditions to be considered for an incomplete grade:

1. The concurrent student must request, in advance, a grade of incomplete from the instructor of the course and must make arrangements for completing the coursework with the instructor.
2. At the time of the incomplete request, the ESCC student must have completed at least 60% of the academic semester.
3. Each instructor may set a higher completion level requirement for his/her individual course.

4. At the time of the incomplete request, the ESCC student must be in compliance with all course requirements as outlined in the course syllabus, including attendance requirements.
5. The instructor of a course has sole discretion in initiating an incomplete grade request. Instructors may deny an incomplete request even if a student meets the minimum requirements outlined above.

An ESCC student may be required to submit documentation of the reasons the student is not able to complete the coursework. Providing the student with redress and due process. 2. Protecting faculty rights in freedom of instruction. 3. Providing a mechanism for problem-solving. 4. Achieving an equitable resolution of the grievance as quickly as possible. For assistance or steps for filing an academic grievance, contact the ESCC Coordinator.

GRADE POINTS AND GRADE POINT AVERAGES

For the purpose of computing current and cumulative grade averages, grade points are assigned as follows: A=4, B=3, C=2, D=1, F=0. A student's grade point average is computed by multiplying the number of credit hours by the grade points assigned to the grade and then dividing the sum of these by the total number of credit hours which the student has attempted. Since grade point averages can affect financial aid, academic awards, admission to other institutions, and scholarships, students are strongly encouraged to stay informed about their grade point average. To check you grade point average, check with your instructor.

Hand Tool Safety

Requirements:

Proper eye protection must be worn—operate only with instructor's permission and after proper instructions have been received.

1. Wear eye protection. Always wear safety glasses, goggles, or a face shield when you work in the laboratory.
2. Always use the right type of tool for the job. Use the tool designed for the work you want to do.
3. Use the right **size** tool. Don't try to do heavy work with a small, light tool; don't try to do fine work with large, heavy-duty tools. Use the tool that suits the work.
4. Before you use a tool, check it to be sure it's clean and in good condition.
5. Never use your hands or fingers to test whether or not a tool is sharp. If the tool is as sharp as it should be, you'll cut yourself.
6. Be sure the tool handle is fitted tightly and securely.
7. Don't use a dull, broken, or defective tool. Report defective or damaged equipment to the instructor.
8. Always carry tools by the handle.
9. When you carry a tool, hold it so the point or sharp edge is aimed down toward the floor.
10. Avoid holding the work with one hand while you use the tool with the other hand. Fasten the work down so you'll have both hands to use the tools.
11. Plan the work so you can keep your balance. Always keep your weight on both feet, and don't over-reach.
12. Don't lay tools down near the edge of the bench. Don't lay tools down where they could roll off, where someone could bump into them or where someone could trip over them.
13. Never aim a cutting tool toward your hands, arms, or body. Aim the tool away from you and away from others, whether you are working with it or just holding it.
14. Always keep your hands and arms out of the path of a cutting tool. Keep hands and arms behind the cutting edge.
15. When you are finished with a tool, return it to its assigned storage area. Don't leave tools lying around.
16. Use the tools **only** if you understand how to use them correctly and safely. If you're not sure, check with the instructor.
